Your industry

In today's constantly evolving manufacturing landscape, enhanced demand variability challenges manufacturers to increasingly streamline their processes in order to remain competitive and drive business growth.

We therefore provide transportation and logistics services that enable you to make your supply chains leaner and more agile. In return, you will achieve the necessary flexibility to effectively manage the complex supply and demand of your customers.

The Panalpina Group is one of the world's leading suppliers of forwarding and logistics services, specializing in global supply chain management solutions and intercontinental air freight and ocean freight shipments as well as customized supply chain management solutions.

Together with you we will establish and implement solutions, which meet your needs and respond to the prevailing challenges of your industry.

Our team

Our dedicated manufacturing experts have in-depth industry knowledge and extensive expertise in supply chain consulting, implementation and execution. We are passionate about discovering new approaches which add value to your international supply chain.

All Panalpina team members are committed to applying their skills and market intelligence to ensure that your customers are completely satisfied with your services when we deliver your products to the right place, at the right time, every time.

Our manufacturing specialists are strategically located in key areas around the world to cover your global and local requirements. With our extensive expertise, infrastructure, global network and state-of-the-art IT systems, your logistics solutions can be implemented locally and replicated globally. Our local business units allow us to understand and share sourcing trends and local customs procedures, enabling us to maximize your end-to-end delivery and cost effectiveness.

We are ready to put our experience and passion for solutions to work for you by complementing your core competencies, thus allowing you to focus on your customers.

Our services, your benefits

Our manufacturing services

Our experts will work with you to provide tailor made solutions to meet your specific supply chain requirements.

Our manufacturing services include:

- Process improvement
- Process optimization
- Process design and maintenance
- Service implementation
- Spare parts management
- Pick and pack
- Door-to-door delivery

Advanced manufacturing support:

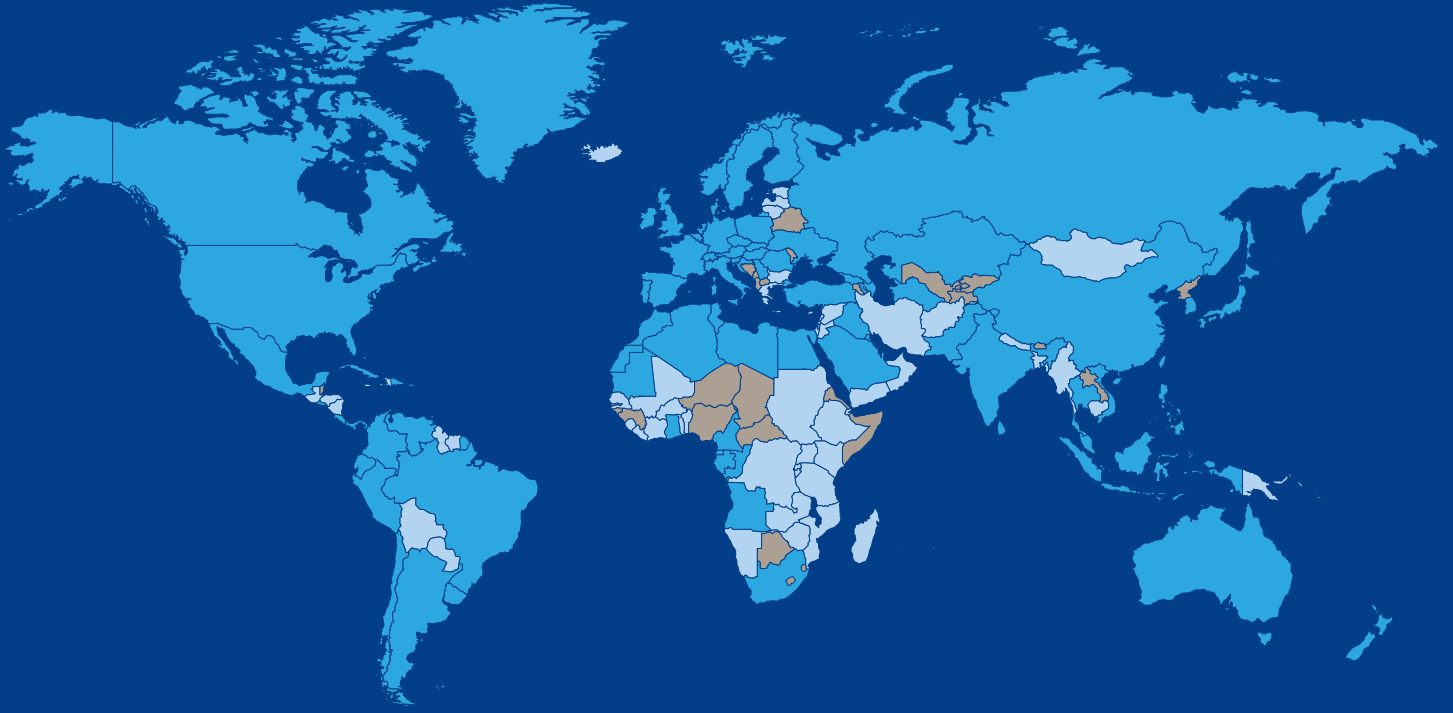

- Specification of equipment
- Supplier/order management
- Consolidation/distribution centers
- Milk-run management
- Control tower operations
- Material quality inspection
- Inventory control systems
- Customized delivery scheduling
- Reverse logistics programs
- Network delivery optimization
- Oversized cargo (rigging, out of gauge, crane operation)

Your benefits

We work closely with you to deliver solutions that lead to cost savings and create value for your company. Your supply chains will be leaner and more agile; hence time-to-market will decrease. Within our own controlled network we utilize our proven logistics expertise to drive innovation and continuously improve processes. Our highly specialized, dedicated team and our global presence also work to your benefit.

All logistics services require state-of-the-art support systems. We provide web-based software programs to support a smooth process flow, thus ensuring complete visibility and transparency within your supply chain.

The global Panalpina network: ■ Countries with Panalpina presence ■ Countries with partner presence
