The Articles of PWT specify that any shareholder may exercise voting rights to a maximum of 5 percent of the total number of shares recorded in the commercial register. This limitation for registration in the share register shall also apply to persons who hold shares fully or in part through nominees within the meaning of the Articles. Furthermore, this limitation for registration in the share register also applies to registered shares that are acquired through the exercising of preemptive rights, warrants and conversion rights. The Board of Directors is empowered to allow exemptions from the limitation for registration in the share register in particular cases.

The Articles make provision for group clauses.

The limitations on transferability do not apply to the shares held by the Ernst Göhner Foundation because it held PWT shares prior to the implementation of the limitations (so-called grandfathering).

2.6.2 Reasons for granting exceptions in the year under review

No exceptions were granted during the reporting year.

2.6.3 Admissibility of nominee registrations; indication of any percent clauses and registration conditions

The Articles of PWT specify that the Board of Directors may register nominees with voting rights in the share register up to a maximum of 2 percent of the share capital recorded in the commercial register. Nominees are persons who do not expressly declare in their application that they hold the shares for their own account and with whom the company has entered into an agreement to this effect.

The Board of Directors is empowered to register nominees with voting rights exceeding 2 percent of the share capital recorded in the commercial register as long as the respective nominees inform PWT of the names, addresses, nationalities (registered office in the case of legal entities) and the shareholdings of those persons for whose account they hold 2 percent or more of the share capital recorded in the commercial register.

The Articles make provision for group clauses.

The Articles of PWT do not make provision for the general renewal of office for the Board of Directors. The members of the Board of Directors are elected at each General Meeting of Shareholders with a one-year period of office. They may be reelected at any time. The Organizational Regulations of PWT specify an age limit of 72 years for the members of the Board of Directors.

3.3.2 The first election and remaining term of office for each member of the Board of Directors

The timing of the first election and the remaining term of office for each member of the Board of Directors is specified under section 3.1.

3.4 INTERNAL ORGANIZATIONAL STRUCTURE

The Board of Directors is responsible for the ultimate management of the company and monitoring of the Executive Board. It represents the company externally and is responsible for all matters which have not been transferred to another executive body of the company by the Swiss Code of Obligations or the Articles. In line with the Articles, the Board of Directors has established Organizational Regulations that transfer certain management responsibilities to the Executive Board.

3.4.1 Allocation of tasks within the Board of Directors

The Chairman of the Board of Directors is elected at each General Meeting of Shareholders with a one-year period of office. The Vice Chairman is appointed by the Board of Directors. The Chairman (in his absence the Vice Chairman) directly supervises the business affairs and activities of the Executive Board and is entitled to regularly attend Executive Board meetings. The Corporate Auditor as well as the Corporate Secretary, in his capacity as secretary to the Board of Directors, are directly subordinated to the Chairman of the Board of Directors.

3.4.2 Member list, tasks and areas of responsibility for each committee of the Board of Directors

Three committees exist under the Board of Directors.

The Audit Committee consists of the following members of the Board of Directors: Hans-Peter Strodel (Chairman), Ilias Läber and Roger Schmid. The Audit Committee supports the Board of Directors with the review of the company's financial statements, the supervision of the financial accounting standards and reporting, the review of the effectiveness of the Internal Control System

and with the efficiency of external and internal audit procedures, including risk management. The Audit Committee reviews the consolidated annual financial statements as well as the published interim financial statements and submits an application to the Board of Directors for approval. It regularly maintains contact with the Group Auditors and the Corporate Auditor. On this basis, it adopts the detailed reports of the Group Auditors and semiannual reports of Corporate Audit. It is therefore in the position to audit the quality, effectiveness and interaction between the control systems, to determine the audit priorities, to introduce proposed measures and to monitor their implementation. The Audit Committee determines the organization of Corporate Audit, adopts the internal audit charter and approves the annual planning and scope of internal audit.

In the field of risk management, the Audit Committee approves the detailed and weighted risk map of the Executive Board, adopts the necessary measures for risk control and risk mitigation and reports the respective outcome to the Board of Directors on a yearly basis. The risk map itself covers any strategic, financial, operational, legal and compliance risks that could significantly impact the company's ability to achieve its business goals and financial targets. Identified risks are weighted and prioritized by the Executive Board according to their significance and likelihood of occurrence. For each risk, specific risk mitigation measures – including their current status – are defined and responsibilities are allocated. The risk map, which is compiled by the Risk Review Committee, chaired by the Corporate Secretary, for review by the Executive Board and subsequent approval by the Audit Committee, contains risks identified and assessed by the respective corporate functions, Regional Management, Corporate Audit and the Group Auditors. The Group's key risks are annually reported to the Board of Directors.

During the reporting year the Audit Committee held five half day meetings. During Audit Committee meetings, direct discussions took place with representatives of the Group Auditors and Corporate Audit. Representatives from the Group Auditors were present at three of these meetings and the Corporate Auditor (being a permanent participant at the Audit Committee Meeting since August 2010) attended all of the above-mentioned meetings. At these meetings, the Executive Board was regularly represented by the CEO, the CFO and the Corporate Secretary.

The Compensation and Nomination Committee consists of the following members of the Board of Directors: Rudolf W. Hug (Chairman), Chris E. Muntwyler and Knud Elmholdt Stubkjær. The members of the Committee are elected at each General Meeting of Shareholders with a one-year period of office. It monitors the selection process for members of the Board of Directors, the Executive Board and other selected senior management positions, determines the overall remuneration and terms of employment for members of the Board of Directors and the Executive Board as well as remuneration bands for highly compensated employees. Regarding the compensation of the members of the Executive Board, the Committee makes a decision subject to the final approval of the Board of Directors; applications for the compensation of the Board members are decided by the Committee and shared with the Board of Directors. Each year the Committee decides on the bonus compensation for the CEO and the other members of the Executive Board for the previous year, based on recommendations of the Chairman (for the CEO) and the CEO (for other Executive Board members). Furthermore, the Committee regularly reviews the Board Stock Award Plan, the Executive Board Mid-Term and Long-Term Incentive Plans and the Group's Management Incentive Plan and submits proposals for final approval to the Board of Directors. Moreover, it approves concepts and policies for the Group's management performance assessment, succession planning and expat programs.

During the reporting year, the Compensation and Nomination Committee held four meetings of approximately two hours each. The Executive Board was regularly represented at these meetings by the CEO, the Chief HR Officer and the Corporate Secretary.

The Ethics and Compliance Committee consists of the following members of the Board of Directors: Rudolf W. Hug (Chairman), Roger Schmid and Beat Walti. It oversees the company's Business Ethics Program. It has also monitored Panalpina's adherence to the Administrative Agreement with the US Department of the Air Force which has expired in the reporting year. It further monitors the handling of major legal matters, including the pending antitrust investigations and related proceedings as well as the development of the company's compliance policies and procedures.

During the reporting year, the Committee has held three meetings. The Executive Board was represented at these meetings by the CEO and the Corporate Secretary.

The Committees generally meet prior to Board of Directors meetings. The chairmen of the committees inform and update the Board of Directors on the topics discussed and decisions made during such meetings. They submit proposals for approval related to decisions that fall within the scope of the Board of Directors.

Objectives, organization, duties and the cooperation with the Board of Directors are defined in the Terms of Reference of the respective committees which are reviewed and adopted by the Board of Directors.

The overall responsibility of the Board of Directors is not affected by these committees.

3.4.3 Working methods of the Board of Directors and its committees

During the reporting year, the Board of Directors held four full-day meetings. The Executive Board was represented by all its members at these meetings. In urgent cases, telephone conferences are organized in order for decisions to be taken.

At every meeting, the Executive Board updates the Board of Directors on business and key financial developments and main regional and segment developments. On a quarterly basis, detailed consolidated financial statements on the Group, regional and business segment levels are reported to the Board of Directors in accordance with International Financial Reporting Standards (IFRS). The Board of Directors is furnished in time with an agenda, detailed meeting documentation related to topics on the agenda and minutes.

3.5 DEFINITION OF AREAS OF RESPONSIBILITY

In line with the law and the Articles, the Board of Directors has transferred the responsibility to develop and implement the Group strategy, as well as the responsibility to supervise business and financial development of the Group's subsidiaries, to the Executive Board.

The Organizational Regulations adopted by the Board of Directors govern the cooperation between the Board of Directors, the Chairman and the Executive Board. They contain a detailed catalogue of duties and competencies which determine the financial thresholds within which the Board of Directors and the Executive Board can efficiently execute their daily business. The Organizational Regulations which also contain the Group's Approval Matrix with the related decision-making powers of the various bodies on Corporate and Regional level are accessible on Panalpina's website.

The main responsibilities of the Board of Directors on Group level include the determination of the business strategy on the basis of applications filed by the Executive Board, the approval of major Group policies and organizational structures, including topics related to Corporate Governance and Compliance, the approval of the annual operational and investment budgets, the approval of any extraordinary additional investment applications as well as financial planning. Further responsibilities include decisions regarding mergers and acquisitions and major management staff and remuneration decisions following recommendations and preparatory work of its Compensation and Nomination Committee.

3.6 INFORMATION AND CONTROL INSTRUMENTS VIS-À-VIS THE SENIOR MANAGEMENT

The Executive Board informs the Board of Directors in a written format on a monthly basis on the current course of business, covering the Group's consolidated monthly and year-to-date income statements, including deviation to budget and preceding year, regional- and product income statements, functional costs / FTE development, financial position, statements on cash flows and net working capital development.

A detailed update is provided at each Board of Directors meeting.

On a quarterly basis, the reporting covers the condensed consolidated interim financial statements including key developments, income statement, statement of comprehensive income, statement of financial position, statement of changes in equity, statement of cash flows and explanatory notes, IR presentations and media release.

Further information regarding personnel and organizational changes, extraordinary events and the activities of analysts, investors and competitors form part of the regular reporting. Moreover, the Board of Directors annually reviews and approves the Group's targets for the individual regions and business segments and adopts the respective report of the Executive Board.

During the reporting year, the Chairman of the Board of Directors attended two Executive Board meetings and regularly receives the minutes of the Executive Board meetings. The members of the Executive Board regularly join meetings of the Board of Directors. In addition, individual senior executives attended specific topic discussions pertaining to their particular field of expertise. Furthermore, specific meetings of the Board of Directors are dedicated to a detailed review of major markets, business segments and the Group's strategy according to predefined schedule. For further details please refer to sections 3.4.2 and 3.4.3.

The Audit Committee of the Board of Directors monitors and assesses the activities of the Corporate Auditor as well as his cooperation with the Group Auditors.

The Audit Committee receives the Corporate Auditor's half-year reports and also adopts the comprehensive annual risk map of the Executive Board. The Audit Committee approves the proposed risk control and risk mitigation measures as well as the annual planning and scope of the internal audit, which is also based on the Risk Map. 6 SHAREHOLDERS' PARTICIPATION

6.1 VOTING RIGHTS AND REPRESENTATION RESTRICTIONS

Each share carries one vote at the General Meeting of Shareholders. The Articles state that when exercising voting rights, no shareholder may directly or indirectly represent more than 5 percent of the total shares issued by the company for own and represented shares.

The Articles provide for group clauses.

The voting right restrictions are not applicable to representatives of the independent proxy holder of voting rights (unabhängiger Stimmrechtsvertreter).

The voting restrictions do not apply to the shares held by the Ernst Göhner Foundation, because it held PWT shares prior to the introduction of the voting restrictions (grandfathering).

Any abolition or change of the provisions relating to the restrictions on voting rights requires a resolution of the General Meeting of Shareholders on which at least two-thirds of the voting shares represented agree.

A written proxy entitles a shareholder to be represented at the General Meeting of Shareholders by his or her legal representative, or by another shareholder with the right to vote, or by the independent proxy holder of voting rights (unabhängiger Stimmrechtsvertreter).

6.2 STATUTORY QUORUMS

In principle, the legal rules on quorums apply. Supplementary to the quorums legally listed, a two-thirds majority of the shares represented at the General Meeting of Shareholders is required for the following resolutions:

- any abolition or change of the provisions relating to transfer restrictions;
- any abolition or change of the provisions relating to the restriction of voting rights;
- the transformation of registered shares into bearer shares;
- the dissolution of the company by way of liquidation;
- the removal of two or more members of the Board of Directors;
- the abolition of the respective provision in the Articles as well as the repeal or relief of the stated quorum. A resolution to increase the quorum as set forth in the Articles must be based on the consent of the increased quorum.

6.3 CONVOCAION OF THE GENERAL MEETING OF SHAREHOLDERS

There are no provisions deviating from the law.

6.4 AGENDA

Shareholders who individually or together with other shareholders represent shares in the nominal value of CHF 1 million may request that an item be placed on the agenda. Such a request must be made in writing to PWT at least 60 days prior to the General Meeting of Shareholders.

6.5 INSCRIPTIONS INTO THE SHARE REGISTER

Registered shares can only be represented by shareholders (or nominees) who have been entered into the PWT share register. Shareholders (or registered nominees) who cannot personally attend the General Meeting of Shareholders are entitled to nominate a representative according to the provisions in the Articles, who represents them by written proxy.

For the purpose of determining voting rights, the share register is closed for registration from the date upon which the General Meeting of Shareholders has been called (date of invitation) until the day after the General Meeting of Shareholders has taken place.

7 CHANGES OF CONTROL AND DEFENSE MEASURES

7.1 DUTY TO MAKE AN OFFER

No opting-out or opting-up provisions exist.

7.2 CLAUSES ON CHANGES OF CONTROL

Neither the contracts of the members of the Board of Directors nor of the Executive Board have a change-of-control clause.

8 AUDITORS

8.1 DURATION OF THE MANDATE AND TERM OF OFFICE OF THE LEAD AUDITOR

The mandate to act as statutory and Group Auditors is assumed by KPMG, Zurich on a yearly basis. Marc Ziegler replaced his predecessor Regula Wallimann as auditor in charge starting with the business year 2014.

8.2 AUDITING FEES

According to financial accounting, invoices for auditing fees for the financial year amounted to CHF 2.3 million.

8.3 ADDITIONAL FEES

The auditors KPMG were compensated with an additional amount of CHF 1.2 million for further services rendered in the financial year.

8.4 INFORMATIONAL INSTRUMENTS PERTAINING TO THE EXTERNAL AUDIT

The Group Auditors are supervised and controlled by the Audit Committee. The Group Auditors report to the Audit Committee and periodically the lead auditor participates in the meetings. During these meetings, the Group Auditors present a detailed audit plan for the current year including risk-based audit priorities, the audit scope, proposals regarding audit fees, organization and timing as well as updates and status of the results of the Internal Control System. In subsequent meetings they present interim audit findings with respective statements and recommendations later followed by a detailed audit report. Presentations also contain references to upcoming changes in legislation and IFRS. The main criteria for the selection of Group Auditors include independence, network capabilities, industry and IT experience of the audit team, a risk-based audit approach, a central process management as well as the integration of Corporate Audit and risk management functions. The Audit Committee annually assesses the performance of the Group Auditors and determines the audit fees (refer to section 3.5).
